

Harmonic

by jax *Thursday, Nov 1 2012, 11:37am*

international / poetry / post

mathematical harmonics
prove the existence
of sound tunnels
though no proof was required,
they always existed
pulsing their alluring vibrations
opening doorways
to other realms

i could never resist
those harmonic combinations
that led me to you
and opened my being
to ur light

i recall comforting sounds
that wrapped around my being
before i was born,
in the womb perhaps
or in spirit, i do not know
these resonances are as familiar
as my cock and
as comforting
as ur cunt

captured and released
by sound,
there is wisdom
in these harmonics

massive structures,
the tallest buildings
are reduced to rubble
or made to float in the air
with harmonic vibrations

the quantum crew know today
tho they have not yet
mastered the application

soon,
after the great purging

in high places
we shall share our secrets

the earth will be swept clean
returned to its pristine state
restored with harmonic vibrations,
long undulating hums

not a toxic molecule will remain
but not until we have earned
the right to survive

it is true that no coward
enters the kingdom
or enjoys the gardens of paradise --
to the just all things are given
to the timid and subservient
what little remains is taken away
