

## Departed

international / poetry / post

by stealth a poem  
appeared, fully formed  
complete  
but my fuckin' word processor  
shit itself and the poem left  
before i could transcribe it;  
it departed as quick as it appeared  
vanished without a fuckin' trace  
a very odd occurrence  
as other poems leave vestiges  
of themselves  
like trail markers  
for the lost

i am left deserted  
like a jilted lover  
a cock without the  
comfort of a cunt
