Departed

by styx *Sunday, Jan 12 2014, 10:30am* international / poetry / post

by stealth a poem appeared, fully formed complete but my fuckin' word processor shit itself and the poem left before i could transcribe it; it departed as quick as it appeared vanished without a fuckin' trace a very odd occurrence as other poems leave vestiges of themselves like trail markers for the lost

i am left deserted like a jilted lover a cock without the comfort of a cunt
