

Southern Occidental Girls

make no mistake
the 'fairer' sex
use their bodies and sex
to attract men

and when a hapless male
surrenders to the lure
women react and say
i'm not a sex object!

girls, if you would find
a man as mate
then engage him
physically, psychologically
emotionally and intellectually
with equal enthusiasm
and verve

beautiful girls think themselves
vases on a mantle piece
and learn no skills but applying
face paint

plainer girls do engage
by crossing their legs and flashing
floss
or bending, revealing breasts
or rear view crotch,
what a fuckin' bore
for a man (not a boy) -
how many cunts and tits
adorn this planet, girls?

there is nothing you have
that is special except ur unique
combination of attributes,
use what others do not have
and use it well
and perhaps the man
that responds
would stay
as his attraction to u

would be based on the genuine
and real

a word on asian girls and their
raw and bold approach,
which i find difficult to resist

manoeuvre ur thighs and bodies
expertly
maintain ur vaginal pulsing skills,
an art that leaves occidental
girls wondering why they fail
to land and hold a man

what answer do i have
confronting an asian waitress
that takes my order
while slowly moving her
crotch on the corner of the table
aware of my awareness
she slowly moves herself
firmer on that corner -
of course
i ask, after chinese tea,
what time she finishes
and leave with her
for another night
in oriental paradise

all in all the most inept
and devoid of all finesse
and social skills are aussie girls,
mooo

but fortunately asian
and most european girls
find me easy and agreeable

the asian quarter
is only a short walk from
here
