

Turn your Guns ...

international / poetry / post

turn ur guns on those that issue them
(the cancer must be eradicated)

every time u see an American flag
draped over a soldier's casket
think of those responsible
-- Wall Street Jews,
Corporate Rogues --
and the traitorous lackey
politicians that serve them

none believe in star or stripe
or founding principles,
avarice and greed drive
them

they pitch brother against brother
worker against worker,
farmer against farmer
citizen against citizen

they see a thriving town
or city and want it
painted blood

for every naive boy
and desperate man
that comes home
in a box or suicides
when reality collides
with propaganda/
lies,
simply ensure
that another coffin
accompanies the innocent
and duped
-- a Wall Street Zionist
or lackey politician

turn the guns
on those that issue them,
the nightmare ceases

the horror subsides
