

## Meaning

international / poetry / post

the meaning of meaning evades  
understanding  
like a zen koan  
it cracks then shatters mind  
leaving only the pristine,  
unblemished origination

how fearful this process,  
plucking metal feathers  
from grounded birds  
that wish only to fly  
tho the sky remains empty

streams and rivers must flow  
to the sea and rise again  
to the sky like spine fountains  
that burst in the brain  
spilling soma, birthing creation

a LIE was the cause of the fall  
and Truth/reality sets all free,  
watch rivers of light flow and circulate  
to see

action arises from non-action effortlessly  
allow the flow of soma to circulate freely, ceaselessly  
by interrogating meaning

Be with me, tho this is no place  
for personal pronouns, the steel feathers  
that prevent flight

existence does not labour,  
it simply becomes spontaneously,  
the above is as the below and  
that which is below must rise above,  
the hot flows to the cold and the cold  
warms to the above without effort

all the power in creation is there for  
the taking if taking is effortless, spontaneous

sweat, blood and sorrow plague  
those that try  
everything already is --  
could you add one cubit or remove one jot?

shattered pieces reform themselves automatically,  
black roses and scarlet tulips do not exist,  
the meaning of meaning cannot be defined  
tho meaning defines then shatters all things

the void is full and overflowing  
and saturated existence is void

this poem is not a riddle,  
discern the meaning of meaning  
to un-know, which unknowing  
gives rise to all knowledge

this poem is not a poem  
it's a koan saturated with meaning  
tho appearing meaningless

in the end/beginning  
u may discover that meaning  
is meaningless
