

## Blue

international / poetry / post

snow falls far away  
so far that it's hardly consequential  
to mention it tho the snow falls never the less

blue forest trees refuse to burn in raging  
forest fires while surrounding trees screaming  
are consumed by the flames

what secret does blue possess?  
the sky and sea are blue  
as are mountains in the distance  
which jutting peaks lick the snow  
until wet  
but the real signifier is this blue planet  
which we call home

the blue keeps us all safe,  
yet no one guards its deep blue hue
